ANNUAL FINANCIAL STATEMENTS
CITY OF VANCOUVER
BRITISH COLUMBIA, CANADA

2001

REPORT OF THE DIRECTOR OF FINANCE

City Hall, Vancouver
April 30, 2002

Mayor P. Owen and Members of Council

It is my pleasure to submit the Consolidated Financial Statements for the City of Vancouver for the year ended December 31, 2001. These financial statements include the financial position and results of operations of the City, all its boards and the City's owned/controlled corporations.

Reporting Changes

In 2000, the City started to apply the Public Sector Accounting Board (PSAB) standards to the financial statements. The PSAB standards are national accounting and reporting principles established by the Canadian Institute of Chartered Accountants to bring consistency of financial reporting across all Canadian senior and local governments. The benefit to the City of adopting these standards is that it facilitates meaningful comparisons of the City's financial position to other Canadian municipalities.

In 2001, the City has made further enhancements to the financial statements:

1. **Budget Presentation**

Budget figures are presented on the Revenue Fund Schedule of Financial Activities to provide for comparisons between planned and actual results of operations. The budget approved by Council has been restated to conform to the PSAB standards.

2. **Accrual of Revenue for Property Owners' Share of Local Improvement Projects**

Revenue for the property owners' share of local improvement projects is accrued at the completion of the project. Previously, revenue for the property owners' share was recognized when the local improvement levies were collected. A retroactive adjustment was made which has improved the financial position of the Capital Fund by \$21.5 million.

3. **Accrual of Unbilled Water and Sewer Consumption**

Revenues for the year include an accrual for estimated unbilled consumption at year end. Previously, these revenues were only recognized at the time of billing. The accrual resulted in a \$5.1 million increase in revenue which is transferred to the Utility Rate Stabilization Reserve. This \$5.1 million increase is a combination of a \$3.4 million retroactive adjustment in water billing and a \$1.7 million accrual of 2001 unbilled sewer and water consumption.

In 2002, the City intends to make a major change to the financial statements by converting the Property Endowment Fund to PSAB standards. Under PSAB standards, property acquisitions will be reported as capital expenditures in the Statement of Financial Activities with a corresponding increase in Equity in Capital Assets.

2001 Financial Highlights

The City continued to maintain a strong financial position in 2001:

1. Cash position of the City, including temporary investments, remained strong at \$330.7 million. This is a 22.6% increase compared to the \$269.6 million in 2000 and is mainly due to a cash infusion from a debenture that was issued in 2001.
2. There was one City of Vancouver debenture issue in February 2001 to finance the City's capital program. The debenture has a 10-year term with a low yield of 5.966%. The issue was well timed and well received by both the institutional and retail investors.

3. The City kept expenditures within the budget ending the year with an operating surplus of \$0.8 million. This brings the total Revenue Fund surplus to \$7.5 million, an 11.1% increase compared to the \$6.8 million in 2000.
4. Expenditures on capital works totalled \$110.9 million compared to the \$135.9 million in 2000. The 2000 capital expenditures were higher due to a number of one-time significant expenditures such as purchase of a police building and the Vancouver Emergency Operation Centre totalling approximately \$15 million.
5. Reserves set aside for specific purposes by Council increased during 2001 by \$19.1 million to \$182.3 million. Reasons for the increase are identified in the 'Reserves' section below.

Property Tax Receivable

Tax collections continue to improve. The collection of 2001 property taxes, including those amounts raised for other taxing authorities, amounted to \$763.3 million, or 99.31% of the total property taxes levied. During the year, the City collected \$23.9 million (62.6%) of the \$38.2 million property tax outstanding at the beginning of 2001.

Taxes outstanding, after provision for uncollectible taxes of \$3.0 million, totalled \$35.4 million, a decrease of \$0.4 million from 2000.

Revenue Fund

The Revenue Fund accounts for the general operations for the City. Spending authority and control for the fund are provided by Council through the annual operating budget process.

Revenues for the year totalled \$711.2 million and expenditures, debt repayments and transfers amounted to \$710.4 million, resulting in a revenue fund surplus of \$.8 million. The total fund balance of the Revenue Fund currently stands at \$7.5 million.

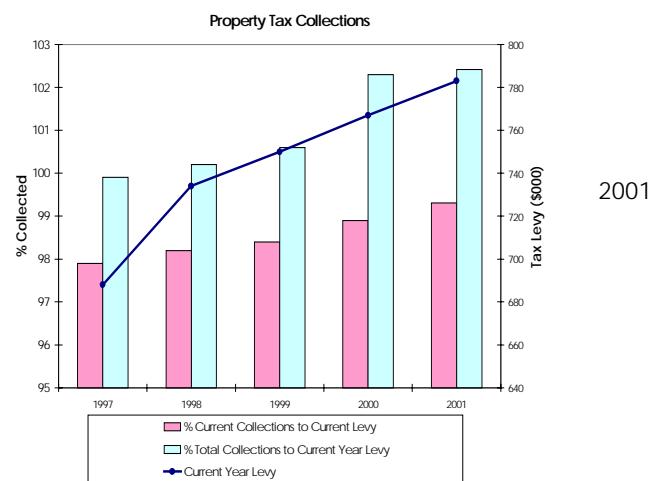

Changes from 2000 Operating Results

City Council approved a 3.0% increase in the property tax levy in 2001. With taxes from new construction value added to the assessment roll, the property tax revenue increased by \$15.8 million or 4.4% over 2000. This increase was offset by the transfer of \$13.0 million in tax-supported sewer costs to a user fee, completing implementation of fees for sanitary sewer purposes begun in 2000.

Other significant changes in revenue included:

- Reduction in transfers from the provincial government related to revenue sharing programs of \$3.2 million.
- An increase in Service and Inspection fee revenue of \$2.3 million or 13.5% as a result of increased activity in the development and building industry.
- An increase in income from short term investments of \$2.5 million or 18% as a result of an increase in cash balances and effective investment strategies.
- An increase of \$1.4 million or 5.8% in revenues from the Street Parking Program.
- Reduction of surplus transferred from the Sinking Fund of \$1.0 million or 25%.

Changes in expenditures from 2000 to 2001 were distorted by a seven-week work stoppage in the fall of 2000 that reduced departmental expenditures. The subsequent settlement of the collective agreements was the single most significant factor in the increase in expenditures in 2001, adding approximately \$11 million. Other areas of increased expenditure include: the addition of 50 new sworn officers in the Police Department; planned increase in the E-Comm charges for emergency radio and dispatch services and the cost of new programs and services arising from the capital program. Costs related to the City's debenture program declined as a result of maturities in the debentures for water and sewer utilities.

REPORT OF THE DIRECTOR OF FINANCE

Capital Fund

The Capital Fund accounts for the City's capital expenditures or programs supporting civic infrastructure as well as the related financing. It also holds all properties required for civic use and the related long term debt. Spending authority and control are provided through the annual Capital Budget and the Three Year Capital Plan approved by Council.

The Capital Fund ended the year with unfunded capital expenditures of \$91.0 million which has been financed on an interim basis by the Capital Financing Fund and the Property Endowment Fund. This amount will be repaid with interest from future operating savings, additional fees and service charges and within the existing property taxation level provided in the Operating Budget.

At the year end, approximately \$50.1 million of general borrowing authority and \$74.6 million of sewer and water borrowing authority had not been exercised by Council through issuance of debentures.

The total debt outstanding at December 31, 2001 was \$510.9 million, \$333.9 million of which was held externally. The balance of \$177.0 million was held by the Sinking Fund, the Capital Financing Fund and the Property Endowment Fund. Of this internally held debt, \$20.9 million is to be recovered from individual property owners through local improvement charges. All the debt is payable in Canadian dollars.

During 2001, the City spent \$110.9 million on capital works. Capital expenditures range from maintenance and improvements to roads, streets, sewers and water distribution systems to fire protection and parks and recreation facilities. Some of the major spending in 2001 included \$28.1 million on streets and traffic and safety; \$23.1 million on main sewer construction and pollution abatement; \$24.4 million on water works system which includes \$9.4 million on the dedicated fire protection system and \$12.6 million on park and community centre development.

Sinking Fund

The Sinking Fund is a statutory requirement of the Vancouver Charter and provides for the retirement of the City's sinking fund debentures. The accumulation of annual installments generated from tax levies, together with interest earned, provide for retirement of principal at maturity. The Sinking Fund actuarial reserve for debt retirement at December 31, 2001 was \$154.4 million. Approximately \$91.7 million relates to internally held debt.

Surplus funds over and above those required to meet future debt maturities are transferred back to the Revenue Fund. During 2001, the transfer was \$3.3 million.

At the year end, the Sinking Fund held \$122.7 million of the City's \$177.0 million internally held debentures. The Property Endowment Fund and the Capital Financing Fund held the balance.

Property Endowment Fund (PEF)

The Property Endowment Fund accounts for real estate properties not required for civic purposes including non-market housing sites and parking garages. The Fund is also a source of internal financing for civic projects. All purchases, sales and transfers require Council approval.

During 2001, \$7 million of the net revenue from operations was transferred to the Revenue Fund to support general operations.

In 2001, the Property Endowment Fund spent \$32.3 million on capital assets. Of this amount \$5.2 million was spent on parking structures financed from the parking sites reserve. Another \$14.9 million was spent to acquire sites for non-market housing development. The sites acquired for non-market housing are then leased to a non-market housing society for a term of 60 years for a prepaid lease of 75% of the acquisition cost.

By the end of the year, the PEF had advanced \$23.0 million to the Capital Fund to fund specific capital projects and held \$5 million of the City's internally held debentures.

REPORT OF THE DIRECTOR OF FINANCE

Capital Financing Fund (CFF)

The CFF provides funds for the purchase of City of Vancouver debentures, the financing of capital works and the City's solid waste program. Spending authority and control are provided by Council through specific authority.

By the end of the year, the CFF had advanced \$75.5 million to the Capital Fund to finance specific capital projects and held \$49.3 million of the City's internally held debentures.

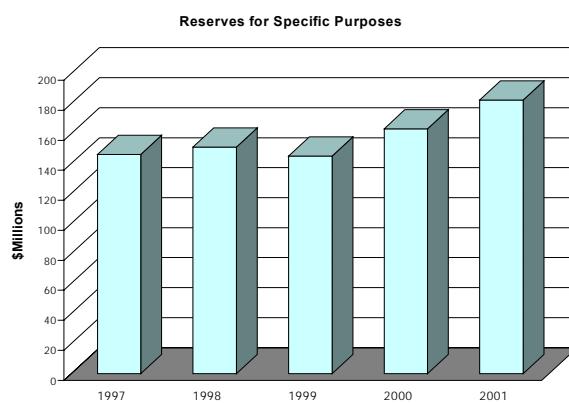

Reserves

These are reserves established by Council resolution and legislative authority for specific purposes.

At the end of 2001, total reserves were \$245.0 million made up of \$62.7 million of Sinking Fund Provision for external Debt Retirement and \$182.3 million of reserves set aside for other purposes. The \$182.3 million of reserves represents an increase of \$19.1 million over 2000.

The most significant changes were:

- The Sewer and Water Utility Rate Stabilization Reserves increased by \$7.3 million as a result of surpluses from operations. Approximately \$5.1 million was related to the change in accounting policy to accrue the estimated unbilled consumption at the year end.
- The Solid Waste Capital Reserve increased by \$3.9 million to \$43.2 million as a result of surpluses from operations. This reserve is intended to fund landfill site development as well as closure and post-closure costs.
- The Plant and Equipment Reserve increased by \$2.8 million. This reserve funds the long term equipment replacement plan.
- Community Amenities Reserve increased by \$2.4 million due to Community Amenities Contributions received in 2001.
- A contribution has been made to the reserves of \$3.5 million to provide for future payment of accrued payroll obligations.

Conclusion

The City of Vancouver has continued to maintain a strong financial position going into 2002. The financial strength of the City reflects the careful attention given by both Council and City staff to prudent financial management.

Respectfully submitted,

Estelle Lo
Director of Finance

AUDITORS' REPORT TO THE MAYOR AND COUNCILLORS OF THE CITY OF VANCOUVER

We have audited the consolidated statement of financial position of the City of Vancouver (the "City") as at December 31, 2001 and the consolidated statements of financial activities and cash flows for the year then ended. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimate made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the City as at December 31, 2001 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles. As required by the Vancouver Charter, we report that, in our opinion, these principles have been applied, after giving retroactive effect to the changes in accounting policy described in note 2 to the consolidated financial statements, on a basis consistent with that of the preceding year.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (000's)
Year Ended December 31, 2001

The City of Vancouver was incorporated in 1886 and is governed by the Vancouver Charter, a private bill consented to by the Legislative Assembly of the Province of British Columbia.

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation

The consolidated financial statements of the City have been prepared, in all material respects, in accordance with generally accepted accounting principles for local governments as recommended by the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants, and the variation therefrom, as reported in accounting policy note 1(g)(ii). This variation has been reported to the Inspector of Municipalities for the Ministry of Community, Aboriginal and Women's Services of the Province of British Columbia.

Changes in accounting policy, including those required to conform to PSAB recommendations, have been applied retroactively. Prior years' comparative figures have been restated to give effect to the changes in accounting policy and are disclosed in Note 2.

(b) Reporting Entity

The consolidated financial statements reflect the assets, liabilities, revenues, expenditures, and changes in fund balances of all funds of the reporting entity. The reporting entity is comprised of all the organizations that are accountable for the administration of their financial affairs and resources to Council and that are owned or controlled by the City. Inter-fund and inter-corporate balances and transactions have been eliminated. The entities included are as follows:

<u>Outside Boards</u>	<u>Owned/Controlled Corporations</u>
Parks & Recreation	Harbour Park Development Ltd.
Vancouver Public Library	City of Vancouver Public Housing Corporation
Vancouver Police	Vancouver Civic Development Corporation
Vancouver Civic Theatres	Hastings Institute Inc.
	Parking Corporation of Vancouver

Also included in these statements are certain assets owned by the City that are under the control and management of the following organizations:

Vancouver Art Gallery	H.R. MacMillan Space Centre
Vancouver Museum	Vancouver Maritime Museum

(c) Fund Accounting

The resources and operations of the reporting entity are comprised of the funds listed below. Supporting schedules to the consolidated financial statements are included to show the financial activities and balance of each fund.

Capital

Accounts for the financing and capital expenditures and holds all properties required for civic use and the related long term debt.

Revenue

Accounts for revenues and expenditures for the general operations of the City including sewer, solid waste and water utilities.

Property Endowment

Accounts for properties not required for civic use which are leased to third parties, or held for, or are being developed for resale or lease.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (000's) continued
Year Ended December 31, 2001

1. SIGNIFICANT ACCOUNTING POLICIES - continued

(c) Fund Accounting (continued)

Sinking

Accounts for the accumulation of installments generated from tax levies in accordance with the actuarial requirements for the retirement of sinking fund debt at maturity.

Capital Financing

Accounts for funds designated for the financing of capital works, for the acquisition of the City's debentures and for funds set aside for the City's solid waste disposal program.

(d) Cash and Temporary Investments

Cash includes short-term investments, recorded at cost, with maturity dates within 90 days of acquisition. Temporary investments are recorded at cost, which approximates market value, and are comprised of money market instruments, term deposits and bonds with maturity dates greater than 90 days after acquisition.

(e) Trust Funds

Certain assets have been conveyed or assigned to the City to be administered as directed by agreement or statute. The City holds the assets for the benefit of, and stands in a fiduciary relationship to, the beneficiary. The trust funds are excluded from the financial statements and are disclosed in Note 10.

(f) Basis of Accounting

- (i) Revenues are recorded in the period in which the transactions or events occurred that gave rise to the revenues. Amounts that have been received in advance are considered deferred revenue until the City discharges the obligations that led to the collection of funds.
- (ii) Expenditures, including transfer payments where no value is received directly in return, are recorded in the period in which the goods or services are acquired and a liability is incurred or transfers are due.
- (iii) Inventory of supplies and materials are valued at cost with allowances made for obsolete stock. Cost is determined on a moving average basis.
- (iv) The preparation of periodic financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported amounts of revenues and expenditures during the reporting period. Actual results will depend on future economic events and could differ from the estimates. Adjustments, if any, will be reflected in the period of settlement.

(g) Capital Assets

(i) Capital Fund (for civic use)

Capital assets purchased or constructed and work-in-progress are reported as capital expenditures in the period they are acquired. Government contributions for the acquisition of capital assets are reported as capital revenue and do not reduce the related capital costs.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (000's) continued
Year Ended December 31, 2001

1. SIGNIFICANT ACCOUNTING POLICIES - continued

(g) Capital Assets - continued

(i) Capital Fund (for civic use) -continued

Capital assets are recorded in the capital fund on the following basis:

Land - At 'actual' value for assessment purposes as determined annually by the B.C. Assessment Authority. Crown land properties beneficially owned by the City are recorded at assessed value.

Waterworks and engineering assets - At cost less accumulated depreciation. Depreciation is provided at varying rates determined by the City Engineer and is reflected as a reduction in the City's equity in capital assets.

Buildings - at cost.

Plant and equipment - at cost.

Artworks and artifacts - at estimated and/or insured values.

(ii) Property Endowment Fund (for sale or lease)

Capital assets acquired by the fund are recorded at cost at the time of acquisition. Assets in this fund are held for lease, sale or development and are accounted for on a commercial basis. Under this basis of accounting, capital asset additions are not recorded as capital expenditures in the Statement of Financial Activities with a corresponding increase in equity in capital assets, contrary to the PSAB accounting recommendations.

Revenue from properties sold is recorded as revenue of the fund. Cost of sales is recorded at time of disposal.

Transfers of properties between funds with the approval of Council are completed at either original cost, market, or such other amounts as are considered appropriate. Equity in properties is adjusted for the results of these transactions.

Assets in the fund are valued as follows:

Land

At 'actual' value for assessment purposes as determined annually by the B.C. Assessment Authority. The development costs incurred are charged against equity to reflect their contribution to the increases in the 'actual' value of land.

Buildings

At cost less accumulated depreciation of \$30.0 million (2000 - \$27.3 million). Depreciation is charged on a 5% straight-line basis on the buildings on parking sites, and on a 5% declining balance basis on leased buildings.

Equipment

At cost less accumulated depreciation of \$1.2 million (2000 - \$.8 million). Depreciation is calculated on a 30% declining balance basis.

Marina

At cost less accumulated depreciation of \$1.2 million (2000 - \$1.1 million). Depreciation is calculated on a 5% straight-line basis.

Property subject to sale option

At option price. The land parcel is subject to purchase by the lessee at a minimum value of \$8.4 million (with an initial expiry date of June 30, 2003 and options on 5-year renewals).

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (000's) continued
Year Ended December 31, 2001

1. SIGNIFICANT ACCOUNTING POLICIES - continued

(h) Reserves for Future Expenditures

Reserves are established at the discretion of Council to set aside funds for future operating and capital expenditures. Transfers to and/or from reserves are reflected as an adjustment to the respective fund.

(i) Obligations to be Funded from Future Revenues

A provision has been made for liabilities such as deferred payroll costs, landfill closure and post-closure, debenture and mortgage interest. The City provides funding in current operating budgets to meet these obligations as they come due. Details are disclosed in Note 7.

(l) Comparative Figures

Certain of the 2000 figures have been reclassified to conform with current year presentation.

2. CHANGES IN ACCOUNTING POLICY

The City adopted the following changes in accounting policy:

(a) Local Improvement Revenue

Local improvement projects are completed on a cost-sharing basis between the City and property owners. Previously, the City did not recognize the revenue for the property owners' share until it was received. In 2001, the City accrued the revenue receivable from property owners for their share of the local improvement projects at the completion of the project.

(b) Water Utility Accrued Revenue

Previously the City recorded revenue only for billed consumption as at year end. Commencing in 2001, the City accrued revenue in the water and sewer utilities for the estimated unbilled consumption as at year end. The increase in surplus is reflected in the Utility Rate Stabilization Reserve based on Council's policy that surpluses be transferred to the reserve.

(c) Interest on Internally Held Debt

Accrued interest receivable on internally held debt is eliminated on consolidation.

The above-noted changes in accounting policy have been applied retroactively and comparative figures have been restated as follows:

	Adjustments to Opening Balances	
	2001	2000
Municipal equity as previously reported	\$ 5,689,921	\$ 5,586,989
Increase (decrease) to opening balance for:

	<u><u>\$ 49,219</u></u>	<u><u>\$ 48,988</u></u>

(a) Landfill Closure and Post-Closure Costs

The City has agreed to certain obligations with the Ministry of Environment Lands and Parks to obtain the Operating Certificate for its landfill site. Those obligations include closure and post-closure liability. The City's estimated liability for these expenditures is recognized as the landfill site's capacity is used and the reported liability of \$10.4 million (2000 - \$10.1 million) represents the portion of the estimated total expenditure recognized as at December 31, 2001. This liability and annual expenditure is calculated based on the ratio of current usage to total capacity of the site and the discounted estimated future cash flows associated with closure and post-closure activities.

The reported liability is based on estimates and assumptions with respect to events extending over the remaining life of the landfill. The remaining capacity of the landfill site is estimated at 17.5 million tonnes, which is 58% of the site's total capacity. The discounted future cash flows for closure and post-closure cost is estimated at \$29 million as at December 31, 2001. The landfill site is expected to reach its capacity in 2042.

In accordance with an agreement between the City and the Greater Vancouver Sewerage and Drainage District, the City is responsible for 87% of the overall liability for closure and post-closure costs. The City has provided a reserve to fund future landfill capital expenditure and waste diversion programs with a balance as at December 31, 2001 of \$43.1 million (2000 - \$39.2 million).

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (000'S) continued
Year Ended December 31, 2001

7. OBLIGATIONS TO BE FUNDED FROM FUTURE REVENUES - continued

(b) Deferred Payroll Costs

Employees of the City are entitled to accumulate earned benefits related to sick leave and may defer vacation and overtime entitlements. The accrual for overtime is valued at current dollars. Sick leave, gratuity and deferred vacation are valued based on past experience and assumptions about retirements, wage and salary increases, employee turnover and rates of return.

8. CONTINGENCIES AND COMMITMENTS

(a) Liability for Debentures Issued by Others

The City is contingently liable in respect of debentures of the Greater Vancouver Water District, the Greater Vancouver Sewerage and Drainage District and the Greater Vancouver Regional District.

(b) Collection of Taxes on Behalf of Other Taxing Authorities

The City is obligated to collect and transmit the tax levies of the following bodies. Such levies are not included in the revenues of the City.

Provincial Government – Schools	British Columbia Assessment Authority
Greater Vancouver Regional District	Municipal Finance Authority
Greater Vancouver Transportation Authority	

(c) Municipal Pension Plan

The City and its employees contribute to the Municipal Pension Plan, a jointly trusted pension plan governed by the B.C. Public Sector Pension Plans Act. The pension plan is a multi-employer contributory defined benefit pension plan with about 125,000 active contributors, including approximately 26,000 contributors from over 180 local governments. Joint trusteeship was established effective April 5, 2001. The board of trustees, representing plan members and employers, is fully responsible for the management of the pension plan, including investment of the assets and administration of the plan. The British Columbia Pension Corporation provides benefit administration services and the British Columbia Investment Management Corporation provides investment management services for the pension plan.

Every three years an actuarial valuation is performed to assess the financial position of the plan and the adequacy of plan funding. The most recent valuation as at December 31, 2000 indicates a surplus of \$436 million, an improved position of 9% surplus of covered payroll from a 14% unfunded liability of covered payroll as at the previous valuation of December 1997. The Joint Trust Agreement specifies how surplus assets can be used. The actuary does not attribute portions of the surplus to individual employers. Each employer expenses contributions to the plan in the year in which payments are made.

(d) Contingent Legal Liabilities

As at December 31, 2001, there were various legal claims pending against the City arising in the ordinary course of its operations. The City has made provision for certain uninsured claims in its self-insurance liability reserve, but has made no specific provision for those where the outcome is presently indeterminable.

(e) Property Assessment Appeals

As at December 31, 2001, there were various property assessment appeals pending with respect to properties. The outcome of those appeals may result in adjustments to property taxes receivable for the current and prior years. The City makes an annual provision against property taxes receivable for the impact of appeals including specific provision where the results of an appeal are reasonably determinable, and general provision for those where the outcome is presently indeterminable.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (000's) continued
Year Ended December 31, 2001

8. CONTINGENCIES AND COMMITMENTS - continued

(f) Mortgage Debentures Payable

Mortgage debentures payable on the Library Square Project have an interest rate of 9.875% per annum compounded semi-annually and a 28-year term maturing January 14, 2021, with principal repayments which commenced in 1996. The debentures are secured by a first charge on the land and any proceeds from the sale of the land on which the office building is situated, the office building and any improvements to it including machinery, plant and equipment, and any proceeds of the lease of the office building.

The City has executed a 25-year lease of the office building with the Federal Government which commenced April 30, 1995. Annual lease payments of \$6.7 million will fully offset debenture principal and interest payments. The lease provides options to purchase the office building at the end of the 10th and 20th years and at the end of the lease term.

Principal payments on the mortgage debentures over the next 5 years and thereafter are as follows

2002	\$ 1,113
2003	1,223
2004	1,352
2005	1,485
2006	1,636

13. SUBSEQUENT EVENT

On April 11, 2002, Council approved a bylaw for the issue of \$100 million non-callable serial debentures in the Canadian market to finance the capital expenditure program. The debentures carry coupon rates increasing from 3.59% in year 1 to 6.125% in year 10. Interest is payable semi-annually with maturity dates commencing April 17, 2003 and continuing until April 17, 2012.
