

## COUNCIL REPORT

Report Date: September 5, 2024  
Contact: Colin Knight  
Contact No.: 604.873.7569  
RTS No.: 16184  
VanRIMS No.: 08-2000-20  
Meeting Date: September 24, 2024  
[Submit comments to Council](#)

TO: Vancouver City Council  
FROM: Director of Financial Planning & Analysis  
SUBJECT: Quarterly Capital Budget Adjustments and Closeouts

### Recommendations

- A. THAT Council approve Capital Budget and funding adjustments as outlined in this report and Appendix B and C, which will result in:
  - a. An increase of \$5.4 million to the 2023-2026 Capital Plan; and
  - b. An increase of \$40.2 million to the Multi-Year Capital Project Budgets.
- B. THAT, as part of the Capital Budget closeout process, the Council approves the closeout of 4 capital projects that were completed with surplus/deficit exceeding \$0.2 million, as outlined in this report and Appendix D.

### Purpose and Executive Summary

As part of the City's Capital Budget process, Council considers Capital Budget adjustments on a quarterly basis. This streamlines the Capital Budget process and reduces the number of standalone Capital Budget-related reports submitted to Council for approval of capital funding and expenditures.

The 2023-2026 Capital Plan Mid-term Update (MTU) report was approved by Council on July 23<sup>rd</sup>, 2024, and this report included adjustments to the Capital Plan required to support the delivery of existing projects underway and manage emerging capital needs, including cost escalations and external opportunities. Adjustments to capital project budgets required to implement the updated 2023-2026 Capital Plan are included in this report. The report also includes adjustments to project budgets that have been identified subsequent to the Capital Plan MTU approval, including adjustments to utilize additional external funding received, and reallocations related to updated project scope and cost estimates.

This report proposes an increase of \$5.4 million to the 2023-2026 Capital Plan and a net increase of \$40.2 million to the Multi-Year Capital Project Budgets to fund new or increased project budgets. The current total approved Multi-Year Capital Project Budgets for all open

projects is \$3.7 billion. A total of 64 projects (\$132 million) were completed in the third quarter of 2024, out of which four projects were closed out with a surplus/deficit exceeding \$0.2 million.

### **Council Authority/Previous Decisions**

The 2023-2026 Capital Plan was approved by Council in June 2022. The plan presents a comprehensive overview of planned City capital investments in infrastructure and amenities across various service categories, along with the associated funding strategy and debt capacity for the capital investment priorities over the four years.

The Council approved the 2024 Capital Budget (funding allocation from 2023-26 Capital Plan) on December 12<sup>th</sup>, 2023.

The Council approved changes to the 2023-2026 Capital Plan through the Mid-Term Update process on July 23<sup>rd</sup>, 2024.

In accordance with the City's Capital Budget Policy, proposed adjustments to the Capital Plan and the Capital Budgets and proposed closeouts of completed projects with surpluses or deficits greater than \$200,000 are presented to Council for approval.

### **City Manager's Comments**

The City Manager concurs with the foregoing recommendations.

### **Context and Background**

Capital budget adjustments are recommended throughout the year to reflect new external funding, progression of projects through planning, design, and construction phases, and reallocations of project budgets based on current cost estimates.

The 2023-2026 Capital Plan Mid-term Update (MTU) included adjustments to the 2023-2026 Capital Plan to support delivery of existing projects underway and manage emerging capital needs, including cost escalations and external opportunities. The report can be viewed at this link: [July 23<sup>rd</sup> 2024 Council Report](#).

### **Discussion**

#### **Capital Plan Summary**

Following the MTU, the 2023-2026 Capital Plan currently stands at \$3.7 billion with \$3.0 billion of city-led capital programs and \$0.7 billion as in-kind projects. Out of the \$3.0 billion city-led Capital Plan funding, \$1.4 billion has been allocated to approved multi-year project budgets.

**Appendix A** provides an overview of the 2023-2026 Capital Plan, after adjustments proposed in this report.

## **Highlights of proposed major budget adjustments**

### ***Adjustments identified during the Mid-Term Capital Plan Update***

Through the MTU, Council approved changes to the 2023-2026 Capital Plan. This report includes related capital project budget adjustments required to implement the adjustments to the Capital Plan, for projects that are ready to proceed in the next quarter. Details of these adjustments can be found in Appendix B of this report. The following include major MTU related adjustments.

#### **1. Mid-Term Capital Plan Updates**

##### **1 a) Emergency Operation Centre (EOC) Audio Visual System Replacement (No change to Capital Plan; Increase to Multi-Year Project Budget: \$1.7 million)**

This budget adjustment will increase the Multi-Year Project Budget to support the replacement of the end-of-life multi-room audio visual systems for the Emergency Operation Centre. The procurement work is to begin in Q3 2024.

##### **1 b) Social Infrastructure grants - Climate (No change to Capital Plan; Increase to Multi-Year Project Budget: \$1.0 million)**

This budget adjustment will increase the Multi-Year Project Budget to allocate Energy Conservation Assistance Program (ECAP) funding to support the Social Grants for non-profits that require capital improvements for climate adaptation.

##### **1 c) Snow Readiness - Service Yard Upgrades (No change to Capital Plan; Increase to Multi-Year Project Budget: \$1.6 million)**

This budget adjustment will increase the Multi-Year Project Budget to support the installation of 16 electric salter hangers at Manitoba Yard to enhance winter maintenance service delivery, enable operational efficiencies, and reduce musculoskeletal injury risk.

### **Ongoing delivery of the 2023-2026 and prior Capital Plan(s)**

The following include ongoing adjustments to capital project budget identified after the MTU process. The adjustments indicated below are related to revised project cost estimates, new and emerging project priorities, and additional external funding.

#### **2. Revised Cost Estimates**

The adjustments below will increase the multi-year budgets in line with revised cost estimates largely driven by cost escalations or change in scope. These cost escalations are driven by higher prices to procure materials, higher shipping and transportation costs due to escalated fuel prices, unforeseen labor and sub-trades shortages due to ongoing supply chain issues.

##### **2 a) Tatlow Park Creek Daylighting (No change to Capital Plan; Increase to Multi-Year Project Budget: \$0.6 million)**

This budget adjustment will increase the Multi-Year Project Budget to address cost escalations related to active transportation detours, foreshore resiliency improvements including the accessible waterfront walkway, and watermain coordination issues at Tatlow Park. This adjustment will be funded through the reprioritization of Parks Universal Access improvements funding, and allocation of available 2023-2026 Capital Plan funding.

**2 b) Coal Harbour – Housing**

*(Increase to 2023-26 Capital Plan: \$0.7 million; Increase to the Multi-Year Project Budget: \$0.7 million)*

This budget adjustment will increase the 2023-2026 Capital Plan and Multi-Year Project budget to address cost escalation for the Coal Harbour Housing project. This adjustment will support delivery of 60 units of housing in the Coal Harbour area and will top up the construction contingency to the requisite levels. The contingency has been used up as the project is experiencing cost escalation due to higher tender prices and unanticipated site conditions. This budget adjustment request will be funded through Citywide Housing DCLs.

**2 c) Sewer Main Renewal – Dunbar and Terminal**

*(No change to Capital Plan; Increase to Multi-Year Project Budget: \$9.0 million)*

This budget adjustment will increase the Multi-Year Project budget to address cost escalation for the Dunbar and Terminal Sewer Main Renewal projects. This adjustment will support an increase to the project contingency for the Dunbar Sewer Main related to use of trenchless construction (\$4M). This adjustment will also fund emergency Force main repair on Terminal Avenue, including spill management, temporary bypass install and repair costs through an external contractor. This adjustment will be funded through a change in the Grandview Woodland basin method of work and diameter of pipes installed, resulting in lower cost per km.

**3. New and Emerging Projects**

The adjustments below will create new multi-year project budgets to address emerging needs.

**3 a) General Brock Park Renewal**

*(No change to Capital Plan; Increase to Multi-Year Project Budget: \$2.8 million)*

This budget adjustment will increase the Multi-Year Project Budget for the General Brock park renewal design, construction and contingency, which is also a Park Board priority. This adjustment will be funded through the reallocation of surplus funding from Bike Pathways, Clinton Brewers Park upgrades, Parks Universal Access Improvements, Renewal and Upgrades of Playgrounds and Spray Parks and the Quilchena Park Renewal, and allocation from 2023-2026 Capital Plan.

**3 b) National Yard Parking Operations – HVAC Upgrade**

*(No change to Capital Plan; Increase to Multi-Year Project Budget: \$0.5 million)*

This budget adjustment will increase the Multi-Year Project Budget for the National Yards Parking Ops Facility to include heating and cooling functionality during an upgrade to the HVAC System to improve efficiency. The new HVAC system would ensure appropriate working conditions for staff during extreme weather events.

**3 c) 2023-2026 Mobile Data Terminal Refresh (Vancouver Police Department)**

*(increase to Capital Plan \$1.2 M; Increase to Multi-Year Project Budget: \$1.2 million)*

This budget adjustment will fund the replacement of laptop terminals to be used in the Vancouver Police vehicles. Replacements are required every 4 – 5 years as the terminals become end-of-life.

#### **4. Delivering the 2023—2026 Capital Plan**

The adjustments below will allocate the funding remaining in the 2023-2026 Capital Plan to capital projects and programs to deliver the scope/outcomes outlined in the plan.

##### **4 a) 2023-26 Renewal of Fleet - Sanitation**

*(No change to Capital Plan; Increase to Multi-Year Project Budget: \$10.5 million)*

This budget adjustment will increase the Multi-Year Project Budget to support procurement of sanitation side loaders in Q4 2024. Currently there are 34 authorized side loaders and orders are required to be placed for the remaining 24 units so that they can be ready for service starting the end of next year.

##### **4 b) 2024 CEADF-Building Retrofits/Cool/Air Quality**

*(No change to Capital Plan; Increase to Multi-Year Project Budget: \$3.5 million)*

This budget adjustment will increase the Multi-Year Project Budget with \$2.5 million of Energy Conservation Assistance Program (ECAP) funding to add cooling and clean air to 2 neighborhood houses, Kiwassa Neighbourhood House and Collingwood Neighbourhood House. An additional \$1 million funding was approved via the MTU process for the upgrade of the electrical systems to support the addition of heat pumps and zero-carbon conversion at Firehall 1, 3 and 18.

##### **4 c) Upgrade to Active Transportation Network**

*(No change to Capital Plan; Increase to Multi-Year Project Budget: \$2.5 million)*

This budget adjustment will increase the Multi-Year Project Budget to support construction of bike lanes at Arbutus and 41st, 500 Pacific Street, and Ontario and 1st.

#### **5. New Funding (Grants, Donations, Governmental Funding, Other Revenues, etc.)**

The adjustments below result in incorporation of new funding into the 2023-26 Capital Plan and the multi-year capital project budget, as applicable.

##### **5 a) 2023-26 Renovations - Service yards**

*(Increase to 2023-26 Capital Plan and Multi-Year Project Budget: \$0.3 million)*

This budget adjustment reflects the receipt of an insurance claim resulting from an arson at Queen Elizabeth Park Service Yard and support reconstruction of the damaged facilities.

##### **5 b) 2023-26 Off-St Electric Vehicle Infrastructure - Non-City Building**

*(Increase to 2023-26 Capital Plan and Multi-Year Project Budget: \$0.6 million)*

This budget adjustment will increase the Multi-Year Project Budget to reflect the receipt of the Clean BC Grant from Natural Resources Canada to enable the delivery of additional off-street EV charging priorities such as expansion of existing charging sites, leveraging BC Hydro charger-deployment opportunities, side street sites, piloting pole-mounted chargers, and expansion of EV MURB Retrofit program to more applicant buildings.

##### **5 c) 2023-26 Renewal/Upgrade Sport Courts/Skate Parks**

*(Increase to 2023-26 Capital Plan and Multi-Year Project Budget: \$0.1 million)*

This budget adjustment will increase the Multi-Year Project Budget to reflect the receipt of an external donation for the renewal and renaming of the Stanley Park Tennis Courts to National Bank Tennis Courts.

#### **6. *Administrative Adjustments***

The adjustments in this category do not result in any change of project scope or cost, but include consolidation or funding swaps to enable administrative efficiency or better project management required for timely delivery of the projects. Additional details can be obtained in Appendix C of the report.

**Appendix B and C** provides details on all the Multi-Year Capital Project Budgets adjustments recommended in this report.

#### **Capital Closeouts**

As per the Capital Budget Policy, proposed closeouts of completed projects with surpluses or deficits greater than \$0.2 million are presented to the Council for approval.

A total of 64 projects/programs with Multi-Year Capital Project Budgets totalling \$132 million were closed in the third quarter of 2024. Four projects were closed with a surplus/deficit exceeding \$0.2 million.

**Appendix D** provides for Council approval the summary of five capital projects closed in the third quarter of 2023 with a surplus or deficit greater than \$0.2 million.

**Appendix E** provides for Council information a summary of capital projects closed in the third quarter that are funded from voter-approved capital funding.

#### **Financial Implications**

This report proposes an increase of \$5.3 million to the 2023-2026 Capital Plan and a net increase of \$40.2 million to the Multi-Year Capital Project Budgets.

The current total approved Multi-Year Capital Project Budgets for all open projects is \$3.2 billion and this report proposes an increase of \$40.2 million for new or increased capital projects budgets. For projects completed in the third quarter for a total of \$132 million, four projects were closed out with a surplus/deficit exceeding \$0.2 million.

#### **Legal Implications**

There are no legal implications associated with this report's recommendations.
